Europe: motion, emotion, imagination

# PRESS ANNOUNCEMENT

EUROTHENTICA is the name of the eBook Collection that is devoted to design and deliver exceptional experiences at heritage places, revealing the cultural values and the authenticity in Europe.

With this eBook we have sought to look through a magnifying glass the authentic Greece, away off the beaten track, that is enriching the cultural experience with stories, myths and traditions. In front of myths, the starting point of the discovery, young and old are in the same mood.

We have selected ten heritage locations in the UNESCO enlisted Medieval City of Rhodes, that enriched with texts, pictures, animations and audiovisuals, will become the red thread on our deeply imaginary map, the pearls in the necklace, connected in one journey, using fantasy as fuel.

EUROTHENTICA is calling for legendary journeys, memory places, cultural sensations, culinary discoveries, games and adventures. In the reign of the unexpected a brave, new world emerges at your fingertips.

*Curiosity lifts the veil.*
